NEWS RELEASE

For Immediate Release: April 30, 2010

Ongoing Operations Receives NACUSO's 2010 Collaboration & Innovation Award

Hagerstown, MD –Ongoing Operations, the leading business continuity CUSO that protects 19% of credit union industry assets and more than 4.6 million members nationwide, took home top honors at NACUSO's recent annual conference. The CUSO Collaboration & Innovation award honors those who exhibit excellence and innovation in utilizing the collaborative model to bring new solutions to the credit union industry.

"We are honored to receive this prestigious award from NACUSO," said Kirk Drake, President of Ongoing Operations. "I think our CUSO's success is living proof of how strong the collaborative business model is and what credit unions can create when they work together."

Ongoing Operations was named Runner Up in 2007 and 2008 in the NACUSO competition, prior to being selected as the 2010 winner. "Ongoing Operations truly demonstrates the type of thought leadership and value creation we wanted to showcase through this award," said Tom Davis, CEO of NACUSO. "Not only are they growing by serving more credit unions, they are constantly searching for new ways to deliver value and developing the next generation of technical solutions to help the industry thrive."

NACUSO was formed in 1985 to help credit unions explore the use of CUSOs and the delivery of non-traditional products and services. Over the years, NACUSO's focus has evolved to helping credit unions form multi-owned CUSOs and participate in collaboration and networked businesses.

Ongoing Operations, LLC is a multi-owned CUSO and the leading provider of Business Continuity & Disaster Recovery Solutions to over 125 clients nationwide. Beyond just backing up credit unions' key systems, Ongoing Operations takes a holistic approach to business continuity to ensure that all of your systems and member communication channels stay up and running – no matter what.
